

Sending a Large Parcel?

Your quick checklist for packing, labelling and booking it right.

HOW TO PREPARE A LARGE PARCEL

- ☒ **Measure & weigh it** - Record length, width, height and weight before you book.
- ☒ **Box it properly** - Use a sturdy double-walled box or crate, reinforced with wide tape.
- ☒ **Pad & secure contents** - Add void-fill for fragile items and secure any loose parts inside.
- ☒ **Label it clearly** - Full address, contact number and your docket/consignment number.
- ☒ **Flag fragile items** - Add "Fragile" or "This Way Up" stickers where it matters.
- ☒ **Split oversized loads** - Multiple boxes can help you avoid weight or size surcharges.
- ☒ **Heavier than 20–30kg?** - Consider palletising and ask us about Special Logistics.
- ☒ **Attach your docket** - Print the booking confirmation docket before collection.

FYI - WAYS TO DELIVER A LARGE PARCEL

Postal network (economical, size-limited) • **Next day courier** (planned & reliable)

Same day courier (urgent, dedicated driver) • **Pallet freight** (bulky, multi-piece)

GOT SOMETHING BIGGER?

Meet Special Logistics

For the loads that don't fit a standard parcel. Our Special Logistics team handles bulky, heavy, multi-piece and palletised shipments - including tail-lift collection and door-to-door delivery - across the UK.
